N5	900	900	900

\* Not all colours are available in every state. Contact your individual state for colour range. The colour when viewed online or colour swatches provided give an indication of colour only and may not be an exact representation of colour. We recommend checking your chosen colour against a sample of the product. Equivalent Colorbond® colour names listed are trademarks of Bluescope Steel Limited and used only for comparison.

# Our Difference

## Outstanding Functionality

The roof panels join together to form a weather tight and seamless finish.

## Made in Australia

Designed and manufactured in Australia with 28 years experience.

## Design Versatility

Colours to complement a wide range of modern and traditional designs.

## Superior Strength and Span

High tensile steel and unique profile designs allow for one of the largest single skin roof spans available.

## Operational Testing

Independently tested and certified for non-cyclonic and cyclonic wind regions.

## Non-Combustible

Independently tested and certified as non-combustible, providing a complete solution for Flame Zone (FZ) regions.

## Minimal Maintenance

Durable and easy to clean paint finishes, resilient to mould growth, translating to easy maintenance.

## 15 Year Warranty

For extra peace of mind, our roofing is backed by a solid 15 year warranty on paint finish.

## Skylights

Our Apollo® Skylight Panels are a superior product made from hi impact acrylic to increase longevity and maintain strength over long spans. Skylights allow natural light to filter into your outdoor area, and complement both traditional and modern roof and home designs.

- ✓ 15-year product warranty
- ✓ Durable and easy to clean surface
- ✓ Available in a range of lengths - 4, 5, 6 and 8M
- ✓ Quick and easy installation without additional screw fixings
- ✓ Utilise natural light with a 195mm wide 'effective light area'
