**Insulated
Roofing Panels**

Ombra screens serve as a sleek, secure, and durable alternative to traditional awnings and outdoor roller shutters.

Privacy and protection all year round, Ombra keeps you shielded from the elements and insects, regardless of the season.

Whether it be an alfresco, pergola, veranda, or balcony, Ombra is the perfect addition for any outdoor entertaining area.

The ultimate external screening solution
for any outdoor area or window

PATIO AREAS & PERGOLAS	VERANDAS	CAFES
COMMERCIAL APPLICATIONS	INDOOR OR OUTDOOR	EXTERNAL WINDOW BLINDS

Available in three clever configurations:

Zip Guide

Straight Drop

Wire Guide

Zip Guide

Your custom designed system can be made in widths of up to 5.7 metres or an impressive 7 metres with Ombra Extreme, offering you an external solution to fit almost any area.

Breakthrough Z-Lock™ technology provides a unique fabric guide, fastening and securing the welded zip and fabric concealed within the side channels; creating a strong, smooth and streamlined system.

The hidden Z-Lock™ function ensures no gap between the fabric screen and side channels and a secure guided movement that won't blow out in the wind.

- Automatic fabric tensioning with Ultra-lock and Automate FT Motor pairing
- Ultra-Lock compatible with spring and gear controls
- Increased capacity to 14m² over the other systems in the range

	WIDTH	DROP	MAX-AREA
Standard	5.7m	3.4m	14m ²
Extreme	7m	5m	35m ²

Z-Lock™

Insect Free Environment

A total seal provided by Ombra's Z-Lock™ technology and the bottom sealing strip aids in creating a relaxing insect free environment.

Superior Wind Resistance

Fabric is secured to the side channels so it won't blow out in the wind.

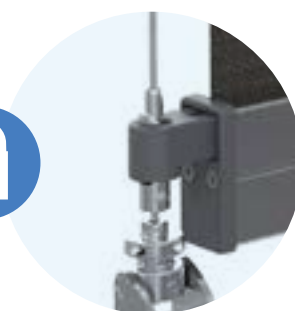

Wire Guide

A discreet cable guided solution, great for floor to ceiling applications. Featuring a universal bracket to fix the base of the wire guide to the floor, face or recess.

Wire Guide also utilises the patented Ultra-Lock for semi-automatic locking with spring and gear controls.

- Improved aesthetics
- Universal bottom bracket fixing (face/floor/recess)
- Compression spring to allow for wire stretch
- Simple wire & lock adjustment
- Can be used with a SPRING

WIDTH	DROP
up to 5.1m	up to 5m

Ultra-Lock

Invisibly integrated, Ultra-lock's patented technology seamlessly reinforces your Ombra, for reduced movement and an ultra-smooth fabric finish. Secures your Ombra automatically, without an external lock or latch, and utilises an in-built, self-correcting system, to ensure your screen evenly clicks in place.

Straight Drop

The Ombra Straight Drop offers a simplified minimal solution which is secured at the bottom using a clip or strap.

Suitable for a variety of external shade applications. Sliding windows and doorways, undercover areas or outdoor eateries.

- Simple cost effective system
- Plastic buckle that slides into weight bar
- Clip and Strap Options

WIDTH	DROP
up to 5.7m	up to 3.4m

Fabric Colour Range

We give you full control to choose the colour, texture and pattern of your screening fabric, or choose to be guided by our experienced team. When selecting your screening fabric consider the colours on your exterior such as the roof, guttering, bricks and other finishes. Every colour in the Ombra range will work harmoniously with the COLORBOND® exterior palette.

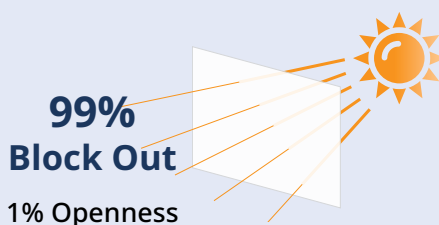

Whether you like a contrasting look using opposing colours, a similar tone for a subtle variation or an exact match for a uniform finish, the Ombra colour range can provide endless possibilities. Be creative and transform your outdoors.

Motorised

Smart Phone Control

Have total control right in the palm of your hand, whether you're home or away. Our Ombra shades can be controlled directly from your smart phone, using Automate motors together with the Automate Pulse hub. Receive live animated shade feedback, through the Automate app, and know exactly what your shades are doing.

Voice Control

For the ultimate comfort and convenience, Ombra Automate Shades are now compatible with Amazon Alexa and Google Home. Control your shades without even having to lift a finger, lower or raise them with a simple voice command instead.
